**Monday 17 November,  
7:00pm - 8:30pm**

**CHANELLE HILL**

*Policy and Advocacy Manager,  
Movember Foundation*

**BEN ROGERS**

*Director, Health Professional  
Education, Movember Foundation*

**SAM MCKEOWN**

*Director, Prostate Cancer  
Research, Movember Foundation*

Join us for an inspiring webinar that shines a light on the 'Real Face of Men's Health in Aotearoa New Zealand'.

Together we'll explore the findings and policy proposals from the national report, and hear how Movember New Zealand and the new Movember Institute of Men's Health are driving change. Learn about the latest research on men's engagement with primary and mental health services and discover an evidence-informed framework to better support men in care. We'll introduce the Men in Mind programme, built on strong research to strengthen mental wellbeing, and share a global overview of Movember's Prostate Cancer Portfolio alongside initiatives happening here in New Zealand. Finally, we'll highlight where else Movember shows up across the motu, giving a broader view of its impact.

This session offers valuable insights, practical frameworks, and fresh ideas to help you strengthen men's health outcomes in your own practice and community.
