

YOU'RE INVITED TO A **ZOOM WEBINAR**

ADULT BLADDER MANAGEMENT FOR RNS

**TUESDAY 8 APRIL,
1PM - 2PM**

JANET THACKRAY

Nurse Educator - Continence

Join us for an informative webinar to identify the most common types of incontinence, know the management and treatment options available (focusing on conservative management), and where to find further resources for you and your patient.

Janet has been nursing for more than 50 years in the UK and NZ mainly in primary care; the last 20 years in the continence field as a clinical nurse specialist and community educator for Continence NZ. She has a private business, Continence Confidence, educating nurses in rest homes. She is passionate about helping people manage their incontinence and raising awareness that incontinence is not a normal part of being elderly or female.

This webinar will be particularly useful for anyone working with incontinent people especially Practice and Community Nurses, Health Care Assistants, Kaiawhina, Caregivers and Allied Health Professionals.
