BHATNAGAR**

*Product owner,
intelligent automation,
Health NZ*

**PAUL
ROSEMAN**

*General manager
strategic development,
ProCare*

**RICHARD
CLAPP**

*Programme Specialist,
East Health
Trust PHO*

**PETER
RADICH**

*Group Chief
Digital Officer,
NZ Health Group*

As health systems face growing workforce pressures, robotic process automation (RPA) is stepping in to take care of time-consuming administrative tasks. In this webinar, speakers from hospital, primary care and community settings will share how “bots” are being used to streamline processes, reduce manual workload and free up clinicians to focus on patient care.
