

YOU'RE INVITED TO A **ZOOM WEBINAR**

DEMENTIA

THE CHALLENGES OF TIMELY DIAGNOSIS & MANAGEMENT

**WEDNESDAY 29 NOVEMBER,
7PM – 8PM**

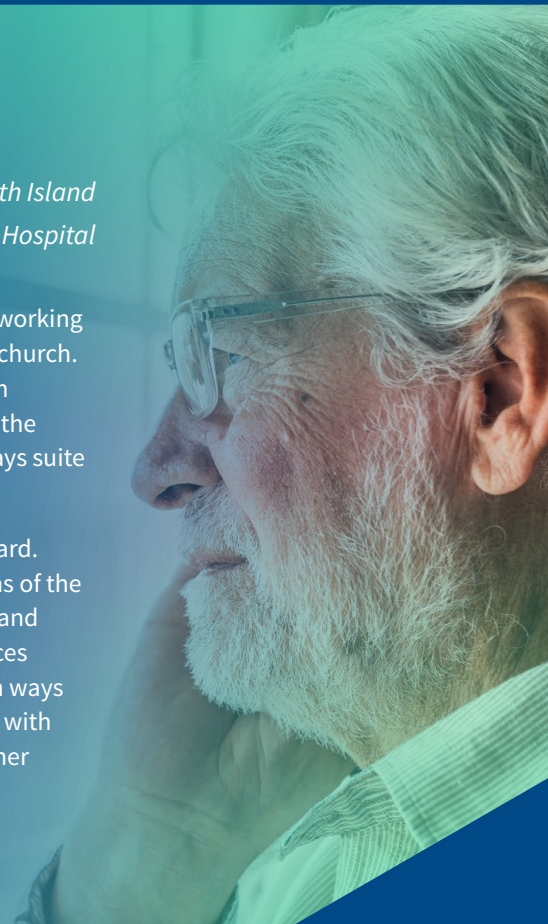

DR MATTHEW CROUCHER

*Psychiatrist of Old Age, Older Persons Mental Health
(including Psychiatry of Old Age Academic Unit and South Island
Dementia Initiative) Te Whatu Ora – Waitaha, Burwood Hospital*

Matthew is an academic & clinical psychiatrist of old age working for Te Whatu Ora – Waitaha at Burwood Hospital in Christchurch. He has regional and national leadership responsibilities in relation to services for people with dementia. Matthew is the specialist advisor in respect of the national HealthPathways suite of cognitive impairment pathways.

Diagnosing and managing dementia can sometimes be hard. Matthew will discuss some of the challenges and strengths of the HealthPathways suite of cognitive impairment pathways and share some innovative solutions that primary care practices around the country have shared with him, with a focus on ways forward for rural teams, ideas about working successfully with Māori whānau, Pasifika aiga / famili, and families from other cultures, and some tips for engaging in this process with young-onset patients.
