

YOU'RE INVITED TO A
ZOOM WEBINAR

THE SHAKERS & MOVERS OF PARKINSON'S DISEASE

A BRIEF INTRODUCTION TO THE MANAGEMENT
OF THIS NEUROLOGICAL CONDITION

**TUESDAY 18 FEBRUARY,
1PM - 2PM**

TONY LAWSON

*Nurse Practitioner - Neurology,
Health New Zealand Te Whatu ora, Bay of Plenty*

Tony specialises in Parkinson's disease and movement disorders and supporting Neurology Nurse Specialists with other neurological conditions. He holds a Master of Nursing (1st Hons), Bachelor of Health Science (High Distinction), and a Post Graduate Diploma of Gerontology, and is a Trustee Board Member of Parkinson's New Zealand Charitable Trust.

Join us for an informative webinar on Parkinson's Disease, offering a foundational understanding of its prevalence and key characteristics. The session includes video vignettes illustrating early presentations, aiding in the diagnosis of motor and non-motor features. You'll gain insights into treatment options and learn to identify, diagnose, and consider treatment pathways. For those in rural areas, practical advice will be given on managing the disease and engaging with allied health professionals.

This webinar is ideal for health professionals in primary care, including GPs, NPs, Practice Nurses, Allied Health, Diversional and Recreational Therapists, Health Coaches, and those working in ARC.
