A FIRE AND EMERGENCY
NEW ZEALAND **WEBINAR**

MANAGING THE BREATHLESS PATIENT FOR FIRST RESPONDERS

TUESDAY 26 NOVEMBER, 7PM - 8PM

PRESENTER
NICOLA CORNA

Nurse Practitioner, Respiratory Services, Te Whatu Ora Counties Manukau

Nicola achieved Nurse Practitioner status in 2019. Her work includes screening, assessing and diagnosing people with chronic respiratory and related conditions, prescribing and managing treatment and follow up. Nicola has been involved in running an outpatient service for people with a variety of conditions requiring non-invasive ventilation since 2007. Nicola was the nursing representative on the COPD EAG for the Ministry of Health and part of the team who have developed the first national COPD guidelines. Nicola is on the NZ Asthma and Respiratory foundation, NZ Scientific Advisory Board and Vaping expert advisory boards.

This session will include:

- Respiratory anatomy and pathophysiology of common respiratory conditions
- Aetiology, assessment and measurement of breathlessness
- Management of breathlessness including both pharmacological and non-pharmacological strategies
- Oxygen therapy - devices, assessment and management.
